Prior TCRP Action:

- Original application was approved on September 28, 2000 (Resolution TA-00-01).
- A Minor Amendment was approved October 2001 to extend project completion date of the Study.
- A second minor amendment was approved June 26, 2003, Resolution TAA-03-03, to allow for completion of four Project Study Reports. These PSR's were the products of the associated preferred alternative, Alternative 15, specified in the conclusion of the Bakersfield System Study. Delays in completing the PSR's are due to opportunities presented by Caltrans engineers during the review process of the alternatives developed and negotiations over design exceptions presented.
